

SYNCROS FL SADDLE ▼

The Syncros FL mountain bike saddle features a slim, composite shell with titanium rails. Contoured foam, inserted only where needed, provides relief in high-pressure zones and a leather cover with

Aramid rear panels is designed to withstand friction abuse.

MSRP \$95

▲ TRP 960 BRAKES

New in 2009, TRP introduces the TRP 960 featuring forged and CNC 6061 aluminum alloy arms in a dual-pivot design. Titanium hardware, a patented sliding quick release coupled with CNC-adjustable angle cartridge pad holders and SwissStop pads round out the calipers. MSRP \$409

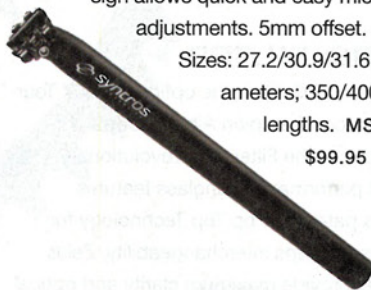

▲ TIFOSI SCOUT EYEWEAR

For 2009 Tifosi rolls out the Scout, a scaled-down version of another new model, the Torrent, which is made for adults with very small faces and kids. The Scout comes with polycarbonate lenses and a Grilamid TR-90 frame just like other Tifosi sunglasses, but at a kid-friendly price. MSRP \$29

SYNCROS AM ONE-BOLT ALLOY SEATPOST ▼

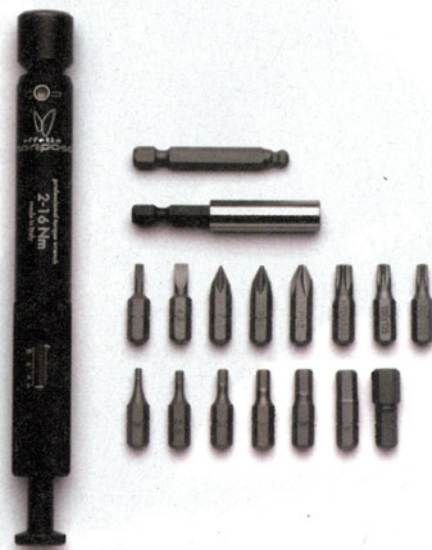

Syncros's AM One-Bolt alloy seatpost is made of series 2014 aluminum using 3D-net forging. A patented 1-bolt clamp system with reinforcing ribs securely holds saddle rails while the convenient side bolt design allows quick and easy micro-adjustments. 5mm offset.

Sizes: 27.2/30.9/31.6 diameters; 350/400mm lengths. MSRP \$99.95

EFFETTO MARIPOSA GIUSTAFORZA TORQUE WRENCH ▼

The Giustaforza "Correct Force" Torque Wrench is the first bicycle torque wrench specifically designed for precision light-weight bicycle parts. The adjustment knob and bit-holder are made of steel to better stand daily use. Available in standard and professional versions for consumer and shop use. MSRP \$184

SAMPSON STRATICS TT BARS ▼

With extensions giving 50mm of fore-aft adjustment and 360 degrees of rotation, the Sampson Stratics TT bars allow a rider to be both comfortable and aerodynamic.

The arm rests offering fore/aft, width and angular adjustment complete the total comfort package. All cable routing is internal. MSRP \$749
