

# Wind Cheaters

THE PERFECT BIKES AND GEAR FOR EVERY TYPE OF RACER

## GO FROM BEGINNER TO WINNER

Spending \$1,500 on a single-purpose bike is a big step, and Felt's S32 rewards your ambition with a good bone of solid performance parts. First, the frame's sturdy, aerodynamic aluminum down tube features a wind-cheater's aerodynamic carbon fork that channels the wind, while the shorter chain stays help to transform your power into speed. The components offer quality when it counts. Shimano derailleur and shifter provide reliable gear changes throughout the 30 gear range, and the PSA Gossamer Mega Evo crankset crankset offers durable power. The Felt's absolute aerodynamic comfort and adjustability, with a professional setup near the wheels, is as important.

Making the transition from casual cyclist to bike racer can be daunting, but the S32 provides a felt dose of stability, proven thanks to our team's hand-crafted changes from our bike to your ride, quickly. After you get

the S32, you'll want to get the most out of it.

course. If you're not sure whether to buy a tri bike or to adapt your road bike with clip-on bars, one taste of the S32's speed will convince you. Our only recommendation: Go to the store to see Shimano's 2008 houses that for more chance to match the rest of the bike. But there's no room to wait long enough for that, so, invest in a moment when you have to stop—Christina Suter
