

Eyewear

Adidas KUNDO

www.adidas.com/eyewear | \$105-\$155

Adidas' new casual-performance offering, the Kundo (Havana model shown), includes an 8-base decentered Vision Advantage PC lens. It also features a traction grip temple for maximum comfort and a Quick-Release Hinge, SPX frame and Flex Zones. Comes in LST Golf and polarized lenses.

Tifosi TYRANT T-V670

www.tifosioptics.com | \$59

These ultralightweight frames (25 grams) fit small to medium faces and have hydrophilic rubber adjustable nose and temple pads. But it's their Fototec polycarbonate lens that makes them stand out. In low-light conditions, the lens is yellow, but as the sun strengthens, it darkens to a smoke color. The T-V670 offers 100 percent UVA/UVB protection.

VedaloHD ABRUZZO

www.vedalohd.com | \$199

As seen on Tiger Woods' caddie, Steve Williams, VedaloHD Abruzzo sunglasses feature the company's revolutionary HDL-3C lens technology that utilizes a tri-stimulus filtering process. This helps to improve the user's visual acuity, depth perception, color and color contrast. The slightly wrapped shades come with rubberized temple tips for extreme comfort.

Kaenon SPINDLE S1

www.kaenon.com | \$299

The featherweight Spindle Series from Kaenon comes in three distinctive lens shapes. The S1 (right) features soft, rounded corners, the S2 has harder edges, and the S3 is an aviator style. Each model has durable single-spring hinges, silicone no-slip nose pads and Variflex rubber temple tips. RX adaptable, Kaenon Polarized Grey 12 and Copper 12 lens options are available. Black Chrome or Antique Copper frames.

Peakvision ZK

www.peakvisionsports.com | \$209; (RX Version: \$469)

Weighing a mere 20 grams, PeakVision's flagship ZK series features a 3-piece rimless, compression-mounted construction. Its high-tensile stainless-steel body is accentuated with vividly colored (and ultra-comfortable) microperforated temple tips. Available in four lens shapes and size options. Comes in a prescription version as well.
